

PRESS RELEASE

SleepMed Selects E-TROLZ as Embedded Measurement Partner

Lawrence, MA – June 6, 2005

E-TROLZ, Inc. announced today that SleepMed, the nation's leading provider of diagnostic and treatment services for sleep disorders and epilepsy, has selected E-TROLZ's embedded measurement and control platform for its ambulatory EEG and sleep study product line.

"E-TROLZ delivered embedded control and technology expertise we could not otherwise afford" said Troy Roberts, VP Engineering of SleepMed. "The improvement in resolution and sample rate for all channels was paramount in selecting their platform to support our current and future product needs."

About SleepMed

SleepMed is the nation's largest provider of diagnostic services for sleep disorders and epilepsy. We serve hospitals and physicians, operate the nation's largest ambulatory sleep and EEG referral service, and we participate in clinical research studies conducted by pharmaceutical companies.

SleepMed's mission is to establish the first national brand in sleep services and expand its market leadership in ambulatory EEG monitoring. SleepMed has the unique ability to provide our patients with comprehensive sleep disorder management from the diagnostic sleep study through the treatment of apnea.

About E-TROLZ

E-TROLZ is a global technology leader in the commercialization of highly integrated real-time measurement and control products for embedded applications. Leveraging its proprietary Dual Partition TriCore Architecture, E-TROLZ's products optimize real-time I/O and data management interoperability in a small portable form factor. E-TROLZ's highly integrated
