PRESS RELEASE

E-TROLZ Occupies New & Expanded Office Space
North Andover, MA – September 1, 2006

E-TROLZ, Inc., an innovator of highly integrated signal acquisition and data management products for electrophysiological medical device OEMs, announced today the completion of its move to new and expanded offices in North Andover, MA. “This new and expanded location at Osgood Landing in North Andover will facilitate the rapid growth and expansion of E-TROLZ” said Jim Robertson, Chairman and CEO of the company. Osgood Landing, the former site of Lucent Technologies on Route 125 in North Andover is attracting a number of technology based companies with its first class facilities and convenient location.

About E-TROLZ

E-TROLZ is a global technology leader providing highly integrated real-time measurement and control products for electrophysiological medical devices. Leveraging its proprietary Dual Partition Tri-Core Architecture™, E-TROLZ’s products optimize signal acquisition and data management interoperability in a small portable form factor. E-TROLZ’s highly integrated products enable dramatic savings for customers in project development cost, time to market, and total cost of ownership. E-TROLZ is the ideal partner for companies who focus resources on software development for the detection of neurological, cardiac, and respiratory disorders. More information about E-TROLZ is available at www.e-trolz.com.
