E-TROLZ Raises over \$1M in Private Equity Round

North Andover, MA – June 4, 2007

E-TROLZ, Inc., an innovator of highly integrated signal acquisition and data management products for electrophysiological medical device OEMs, announced today the successful completion of its third Private Placement investment round. “We are pleased to have exceeded \$1,000,000 in this third investment round” said Jim Robertson, Chairman and CEO of E-TROLZ. “This new capital investment will be used to finalize our product and to further develop our sales pipeline”.

About E-TROLZ

E-TROLZ is a global technology leader providing highly integrated real-time measurement and control products for electrophysiological medical devices. Leveraging its proprietary Dual Partition Tri-Core Architecture™, E-TROLZ’s products optimize signal acquisition and data management interoperability in a small portable form factor. E-TROLZ’s highly integrated products enable dramatic savings for customers in project development cost, time to market, and total cost of ownership. E-TROLZ is the ideal partner for companies who focus resources on software development for the detection of neurological, cardiac, and respiratory disorders. More information about E-TROLZ is available at www.e-trolz.com.
